

Nicara Lodge Toiletries

Your toiletries have been carefully handcrafted in Wairau Valley, a small rural township in the wine region of Marlborough at the top of the South Island. These products have been created with your health and enjoyment in mind; we try to make them as natural as we can. The colours we achieve come only from nature, the fragrances from pure essential oils. We use only essential oils in order that as well as enjoying the divine scent you also gain any therapeutic benefit they may impart.

Our soaps are all made predominantly with Marlborough Olive Oil and our hand/body wash and lotion has Marlborough Manuka and Molesworth Honey included to help feed your skin.

These products are gentle on the environment too, being 98% vegetable based, and there are no animal ingredients used. They contain no SLS or parabens.

If you are ever passing on your travels we'd love to see you, just call!

Jenny and Richard.
